

WebToPrint Communication Flux Workflow Solutions

An easy and intuitive solution allowing you to share with your clients the PDF files for validation through a 100% web interface.

Today, your teams have more and more projects to deal with at the same time. BAT in Box offers a sharing space allowing you to collaborate very easily with your customers to validate online their PDF proofs. With BAT in Box, make sure your projects are delivered on time with no mistakes.

The advantages

Centralisation of your proof

Don't fear anymore the loss of information. With BAT in Box, you centralise the validation process of all your projects. Retain your customers

By centralising all exchanges, you gain in productivity. It becomes easier for you to respect the deadline and ensure customers satisfaction.

Useful and economical

BAT in Box can be used instantaneously, without any complicated configuration. No login or password to remember for your client, just share the link of the proof.

« BAT in Box allows us to centralise our validation cycle, we have seen our numbers of emails reduced. » « Today, with BAT in Box we are more productive and reactive with urgent orders. »

Fabien Lhommede, Imprimerie Bauge Frédéric Denys, Korus Imprimerie « Our clients find this solution very easy to use, it shows our serious and our capactity of innovation towards a better organisation »

> Nicolas Charron, Imprimerie Charron

Put in place an entire automation process by linking BAT in Box to additional solutions such as flow automation.
